Subject: the 2nd Class III draft permit
Attachments: DeweyBurdockClassIIISecondDraftAreaPermit_v1.docx; 2ndClassIII_DraftPermit_Changes.xlsx

Hi Rick,

Attached is the 2nd draft permit with the areas flagged where changes need to be made to include the modeling requirements.

We should get together in January to walk through this. Also attached is the spreadsheet that tracks the changes with a note on what should be said in the Fact Sheet for each change. The "Substantive" worksheet contains the changes related to the model, e.g. the first one is on page 11 of the draft permit and row 3 of the "Substantive" worksheet.

The comment balloons marked "Substantive Change" in the 2nd draft permit document refer to the row numbers in the Substantive worksheet. It's easiest to view the 2nd draft permit with the navigation pane turned off and "Formatting" is unchecked in the "Show Markup" dropdown list in the ribbon under the "Review" tab. (I hope that makes sense.)

Lucita is reviewing these documents now to make sure I am on the right track as we work through these changes.

Valois
